Get to Know Grace

1. Grace was born in Seoul, South Korea, and moved to the United States in Kindergarten.

2. She lives in New Jersey now but has also lived in New York City, Connecticut, and California.

3. She has two kids, a sixth grader and a first grader.

4. Grace loves to travel and has visited 37 US states (13 more to go for all 50!) and 5 continents. The only two continents she hasn't visited yet are South America and Antarctica. She hopes to visit South America in 2027, but she has no plans to visit Antarctica because she hates being cold.

5. Grace has had pet dogs, cats, fish, and chickens. Currently she has 10 koi fish but no pet mammals. Did you know that koi fish can live over a hundred years? The record for oldest koi was a Japanese koi named Hanako who lived 226 years! (Grace's oldest two koi are probably around 15-20 years old, and are named "Jack Black" and "Cody Orange." Jack Black is black and white, and Cody Orange is... you guessed it. Pink! Just kidding, Cody Orange is orange.)

6. As a kid, Grace's favorite authors were Beverly Cleary, Judy Blume, and Ann M. Martin.

7. Grace loves to garden and grows tons of flowers and veggies every year, but she hates to pull weeds.

8. If she could choose any super power, Grace would love the super power to fluently speak and understand every language in the world. That would be so cool.
